Michigan Office of Highway Safety Planning **Video Loan Library**

The following traffic safety-related videos are available for loan. A video loan request form must be completed to request videos.

BICYCLE SAFETY

Ride Smart: It's Time to Start

This funky, fast-paced bicycle safety video uses humor, real-life examples and a peer-to-peer approach to teach youngsters about how a bicycle helmet can protect them from serious injury. (HS123) VHS

Length: 9 minutes

Copyright 2002

BUS SAFETY

The Safest Way Out: Emergency School Bus Evacuation

The three versions of this video are designed to show all types of exits currently outfitted on modern school buses and discuss different ways to evacuate a school bus. (HS099) VHS Copyright 1997

A. General Education, Student Version—Length: 12 minutes

B. General Education, Driver Version—Length: 16 minutes

C. Special Needs Driver Version—Length: 16 minutes

CHILD PASSENGER SAFETY AND AIRBAGS

Child Passenger Safety: A Parent's Guide to Child Safety Seats

Provides an overview of Michigan's child passenger safety law and recommendations for keeping children safe when they're riding in a vehicle. The stages of child passenger safety—rear-facing, forward-facing, and booster—are explained. (HS301) VHS (HS301A) DVD

Length: 9 minutes

Produced 2008

The Back Is Where It's At!

Bill Nye, the Science Guy, explains how airbags work and why it is so important for children to ride in the back seat. (HS089) VHS

Length: 12 minutes

Copyright 1997

Airbags: Today and Tomorrow

Follow a family on a virtual reality ride about airbags at an amusement park. The ride's host, along with animated character Delta V, explain in simple terms how airbags work and how to achieve the maximum safety benefits. (HS124) VHS

Length: 15 minutes

Copyright 2002

DRIVING SAFELY

Almost Home—NEW

Millions of motorists drive drowsy each day, unaware they are placing themselves and others at risk. This video contains four tales what can happen when motorists drive while drowsy. (HS230) VHS

Length: 18 minutes

Copyright 2003

Coaching the Beginning Driver

The National Safety Council Program helps teenagers become safer drivers. Features two videos: "Driving Techniques: A Defensive Driving Video for the New Driver," and "Coaching Techniques," a video to help parents become more effective in a one-on-one driving situation with a new driver. (HS094) VHS

Length: 60 minutes

Copyright 1992

Distracted Driving

Viewers are introduced to potentially dangerous situations and given information to minimize the risks and make the roads safer. (HS127) VHS

Length: 18 minutes

Copyright 2002

Love to Accelerate/One Second in Time—NEW

Two true stories of how street racing can change lives in an instant and the long-term affects for those involved. Additional information follows on speed and aggressive driving. (HS220) VHS

Length: 25 minutes

Copyright 2003

Modern Driving Hazards

This video shows drivers how to negotiate a number of the dangerous driving conditions that are present on roads everywhere. (HS126) VHS

Length: 19 minutes

Copyright 2002

Parking Safely

There is more to parking a vehicle than pulling into a space, turning off the ignition, and closing the door. This video offers tips for parking safely in lots, garages, and on the street. (HS078) VHS

Length: 14 minutes

Copyright 1995

Safe Winter Driving Considerations

Safety tips and techniques for handling the hazards of winter driving including vehicle maintenance checks, pre-trip preparedness, and on-the-road issues such as braking and steering on slippery roads. (HS303) VHS

Length: 21 minutes

Copyright 2001

Stay Clear of Deer All Year

Provides the facts on car-deer crashes, what can be done to reduce the chances of being involved in one, and what to do if a crash is unavoidable. (HS119) VHS

Length: 12 minutes

Copyright 2001

The Unsafe Driving Acts of Motorists in the Vicinity of Large Trucks—NEW

Fatal crashes involving large trucks have declined significantly during the past decade; however, whenever passenger vehicles and large trucks collide, the smaller vehicle typically loses. This video identifies the unsafe driving acts of motorists that contribute to these collisions and provides tips for avoiding these types of crashes. (HS120) DVD

Length: 17 minutes

Copyright 2006

Too Great a Risk

Dramatic footage offers drivers different perspectives on trying to beat a train at crossings. Viewers will see the situation from the locomotive engineer's viewpoint, and will hear what the engineer has to live with every time a driver takes a chance. (HS102) VHS

Length: 14 minutes

Copyright 1997

Young Drivers: The High Risk Years—NEW

Crash rates for young drivers are much higher than for older drivers. In this video, 16-year-olds tell why they want their driver's licenses and what driving means to them. Parents of teenagers who died in crashes tell how the tragedies happened and how their families have been affected. (HS096) DVD

Length: 16 minutes

Copyright 2002

IMPAIRED DRIVING

Addiction—NEW

One in four Americans has a family member struggling with addiction. Yet, under 10 percent of those individuals receive treatment. This four-disc documentary addresses different aspects of the disease and sheds light on current and promising developments in the field. Includes a 12-page program guide. **(HS200)** DVD

Length: 90 minutes

Copyright 2007

Alcohol True Stories

Hosted by Matt Damon, this video tells the stories of four young people and how their choices about alcohol impacted their lives. **(HS129)** VHS

Length: 21 minutes

Copyright 2002

Brandon Tells His Story

At the end of a long day, Brandon Silveria had a few drinks at a party, managed to drive his friends home, and then wrapped his car around a tree. He spent the next two and half months in a coma, and then the next two years in rehab. His speech is slurred, his walk is unsteady, his memory is permanently impaired. Hear what it's like to fight every day to get his life back to where it was. **(HS085)** VHS

Length: 28 minutes

Copyright 1995

Smashed: Toxic Tales of Teens and Alcohol

Filmed at the University of Maryland Shock Trauma Center, this video is a graphic presentation of the devastating consequences of underage drinking and impaired driving. Focusing on the effects of impaired driving collisions when the victims do not die, it shows young crash victims from their arrival at the shock trauma facility and follows their progress over time. *This documentary is not appropriate for young or sensitive children. Recommended for students in grades nine and above.* **(HS306)** VHS

Length: 53 minutes

Copyright 2004

MOTORCYCLE SAFETY

Riding Straight

Each year, alcohol is a factor in numerous crashes that claim motorcyclists' lives. Stress, fatigue, and the use of alcohol or drugs can also impair a rider's skills and judgment. This video provides information about these "skill robbers" and how to tactfully prevent another rider from riding impaired. **(HS305)** VHS

Length: 12 minutes

Copyright 2003

SAFETY BELTS

Diana's Last Message

Using computer graphics, this video recreates Princess Diana's fatal crash. Engineers who reconstructed the crash show how Diana might be alive today if she had been wearing her safety belt. Hear real-life testimony from collision victims who tell how their choices about safety belt use have impacted their lives. Learn about common myths and excuses people have about using safety belts, and the facts that dispel these myths. **(HS116)** VHS

Length: 10 minutes

Copyright 2000

Fasten Your Seat Belt . . . Go Far

Teens talk to their peers about safety belt use. Included are public service announcements created by teenagers who took part in the 2003 Fasten Your Seat Belt . . . Go Far! Contest sponsored by Volkswagon of America, Inc. **(HS300)** VHS

Length: 15 minutes

Copyright 2003

Room to Live—NEW

Vehicles are built with a reinforced safety cage to protect the occupants in a crash. By buckling up and staying within, occupants stand the best chance of survival because there is room to live. Although the video features stories and some statistics from Montana, the message is applicable to drivers in every state. **(HS210)** DVD

Length: 13 minutes

Copyright 2008

Understanding Car Crashes: It's Basic Physics

What happens to vehicles and their occupants in crashes is determined by science. Using a series of vehicle maneuvers on a test track, a high school physics teacher explains the concepts of inertia, momentum, and impulse. **(HS106)** VHS **(HS106A)** DVD

Length: 22 minutes

Copyright 2000

Understanding Car Crashes: When Physics Meets Biology—NEW

Why do some crashes produce only minor injuries while others are fatal? How can a single crash of a car into a wall produce three separate collisions? Find out the answers to these questions and more while examining the laws of nature that determine what happens to the human body in a crash. **(HS107)** DVD

Length: 24 minutes

Copyright 2008

SPANISH TITLES

Camindo a Traves de los Anos – amigos Para Siempre (Walking Through the Years – Pedestrian Safety for Your Child)

Filmed in the style of a telenovela, this video offers a heartwarming and entertaining story of two children who sustain their special friendship despite unexpected circumstances. The video is targeted to Hispanic audiences and identifies the pedestrian safety risks children face every day. **(HS111SP)** VHS

Length: 45 minutes

Copyright 1998

Camindo a Traves de los Anos – La Cita (Walking Through the Years – Pedestrian Safety for Older Adults)

This telenovela, targeted at Hispanic audiences, describes a variety of pedestrian safety threats faced daily by older adults. **(HS112SP)** VHS

Length: 34 minutes

Copyright 1997

Seguridad de Pasajeros Infantiles: Guia de Asientos de Seguridad de Niños para los Padres (Child Passenger Safety: A Parent's Guide to Child Safety Seats)—NEW

Provides an overview of Michigan's child passenger safety law and recommendations for keeping children safe when they're riding in a vehicle. The stages of child passenger safety—rear-facing, forward-facing, and booster—are explained. **(HS301SP)** VHS **(HS301SPA)** DVD

Length: 12 minutes

Produced 2008
